

Choosing a Door

Measure Your Finished Opening

It is important that the customer measures their finished opening in six places (to the nearest 1/8 in.):

- A - Width at top
- B - Width at bottom
- C - Height at left side
- D - Height at right side
- E - Diagonal (Bi-fold only)
- F - Diagonal (Bi-fold only)

The Selection Process

Sliding or Bifold

Sliding	Bifold
<ul style="list-style-type: none"> - Obstacles in front of opening - Used in un-square opening - Easy to install - Access to 50% of opening - For openings over 36 in. wide (extra panel option for large openings) - Can fit openings of 192 in. w x 96 in. h 	<ul style="list-style-type: none"> - No obstacles in front of opening - Square opening - Longer installation time - Access to 95% of opening - For openings under 36 in. wide (all doors have two panels) - Limited to openings of 72 in. w x 96 in. h (2 – 36 in. doors)
