MADERO DOORS & HARDWARE

BUILT FOR THE CANADIAN CLIMATE

No one ever really thinks about how much abuse a door takes. Madero doors consistently stand guard against the sun, the rain and extreme cold. Our doors are built to exceed what it takes to keep the weather out and look gorgeous doing it. Doors aren't something most people think about, but it's all we think about.

ADD-ONS / OPTIONS

MAKE IT UNIQUE, MAKE IT YOURS

SECTION

2

ADD-ONS / OPTIONS

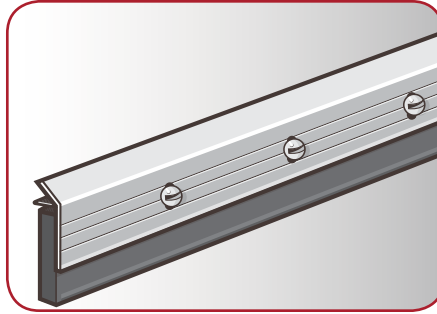

CUSTOMIZE YOUR DOOR (will affect pricing)

Madero's Entry Series door systems have been developed to meet the needs of both residential and commercial environments. Ordered from factory, the add-ons shown below further enhance the door systems for use in your home, garage, shed, or outbuilding.

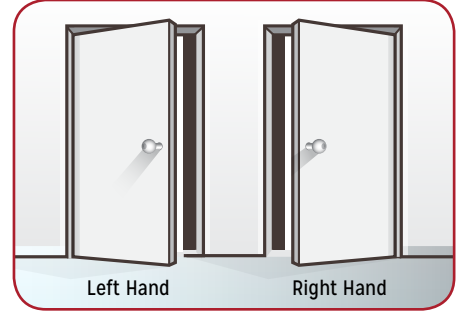

Commercial Sill

Low profile access provides an uninterrupted entry line, allowing ease of mobility for lawnmowers, wheelchairs, dollies, etc. Ideal for high traffic areas. Standard sweep not recommended.

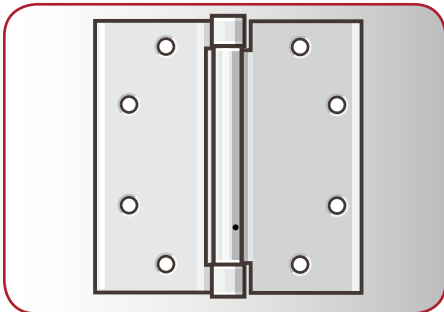

Commercial Sweep

Designed for use in conjunction with the commercial sill.

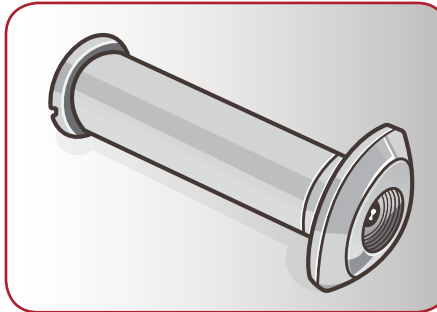

Outswing

The door will swing away from the home, as opposed to swinging into the home.

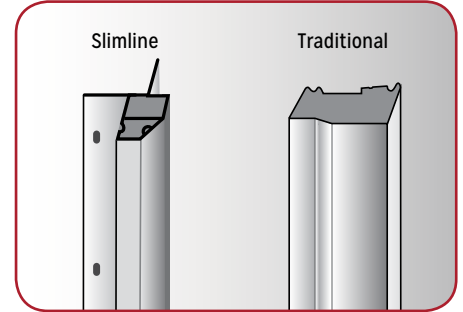

Self-Closing Hinges

These hinges are placed in the bottom and middle hinge pockets to ensure the door remains closed when not in use. Tension is to be adjusted on site.

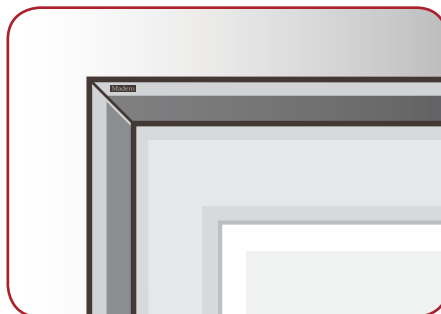

Door Viewer

Allows sight through the door. Cannot be used with any half lite glass options.

PH5900 Slimline Brickmould

A smart alternative to traditional rolled metal clad brickmould. Comes with nailing fin.

No Brickmould

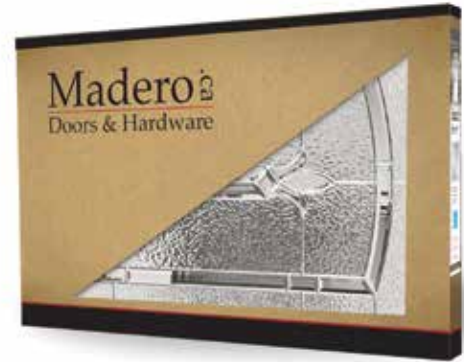

All door designs are available without brickmould.

ADD-ONS / OPTIONS

A SIMPLE UPGRADE

Madero's Doorglass Inserts provide an easy do-it-yourself project and are a great way to enhance the beauty of your home's entry system. Choose from several different glass options, all of which can be installed into an industry standard 23" x 37" half-lite cut out.

1 Lite
 • Dual clear or Dual Low-E glass

Pear
 • Stylized textured glass
 • Privacy rating: 9

9 Lite Internal
 • Clear glass with 5/8" internal grille
 • Privacy rating: 1

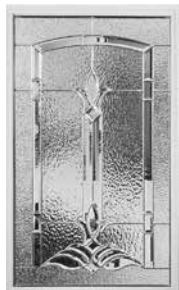

Mini-blinds
 • Clear glass
 • Raise, lower & tilt
 • Privacy rating: 1/5/10

Mark-12 Vent
 • Clear glass with removable screen
 • Privacy rating: 1

Nouveau
 • Clear cluster, bevel and glue chip glass
 • Privacy rating: 6

Bristol
 • Clear bevel, granite and hammered glass
 • Privacy rating: 7

Simplicity
 • Frosted and grooved glass
 • Privacy rating: 8

Estate
 • Clear bevel, soft wave, Renaissance glass
 • Privacy rating: 5

Madero's Doorglass Features:

- Retail packaged and UPC coded for ease of purchase and safe transport.
- Doorglass designs use handcrafted glass in a variety of textures to create dimension, depth, contrast, and privacy while allowing natural light to enter the home.
- Madero's decorative glass is sealed between two panels of tempered safety glass and insulated for air and water-tight performance.
- 20 year glass seal warranty.

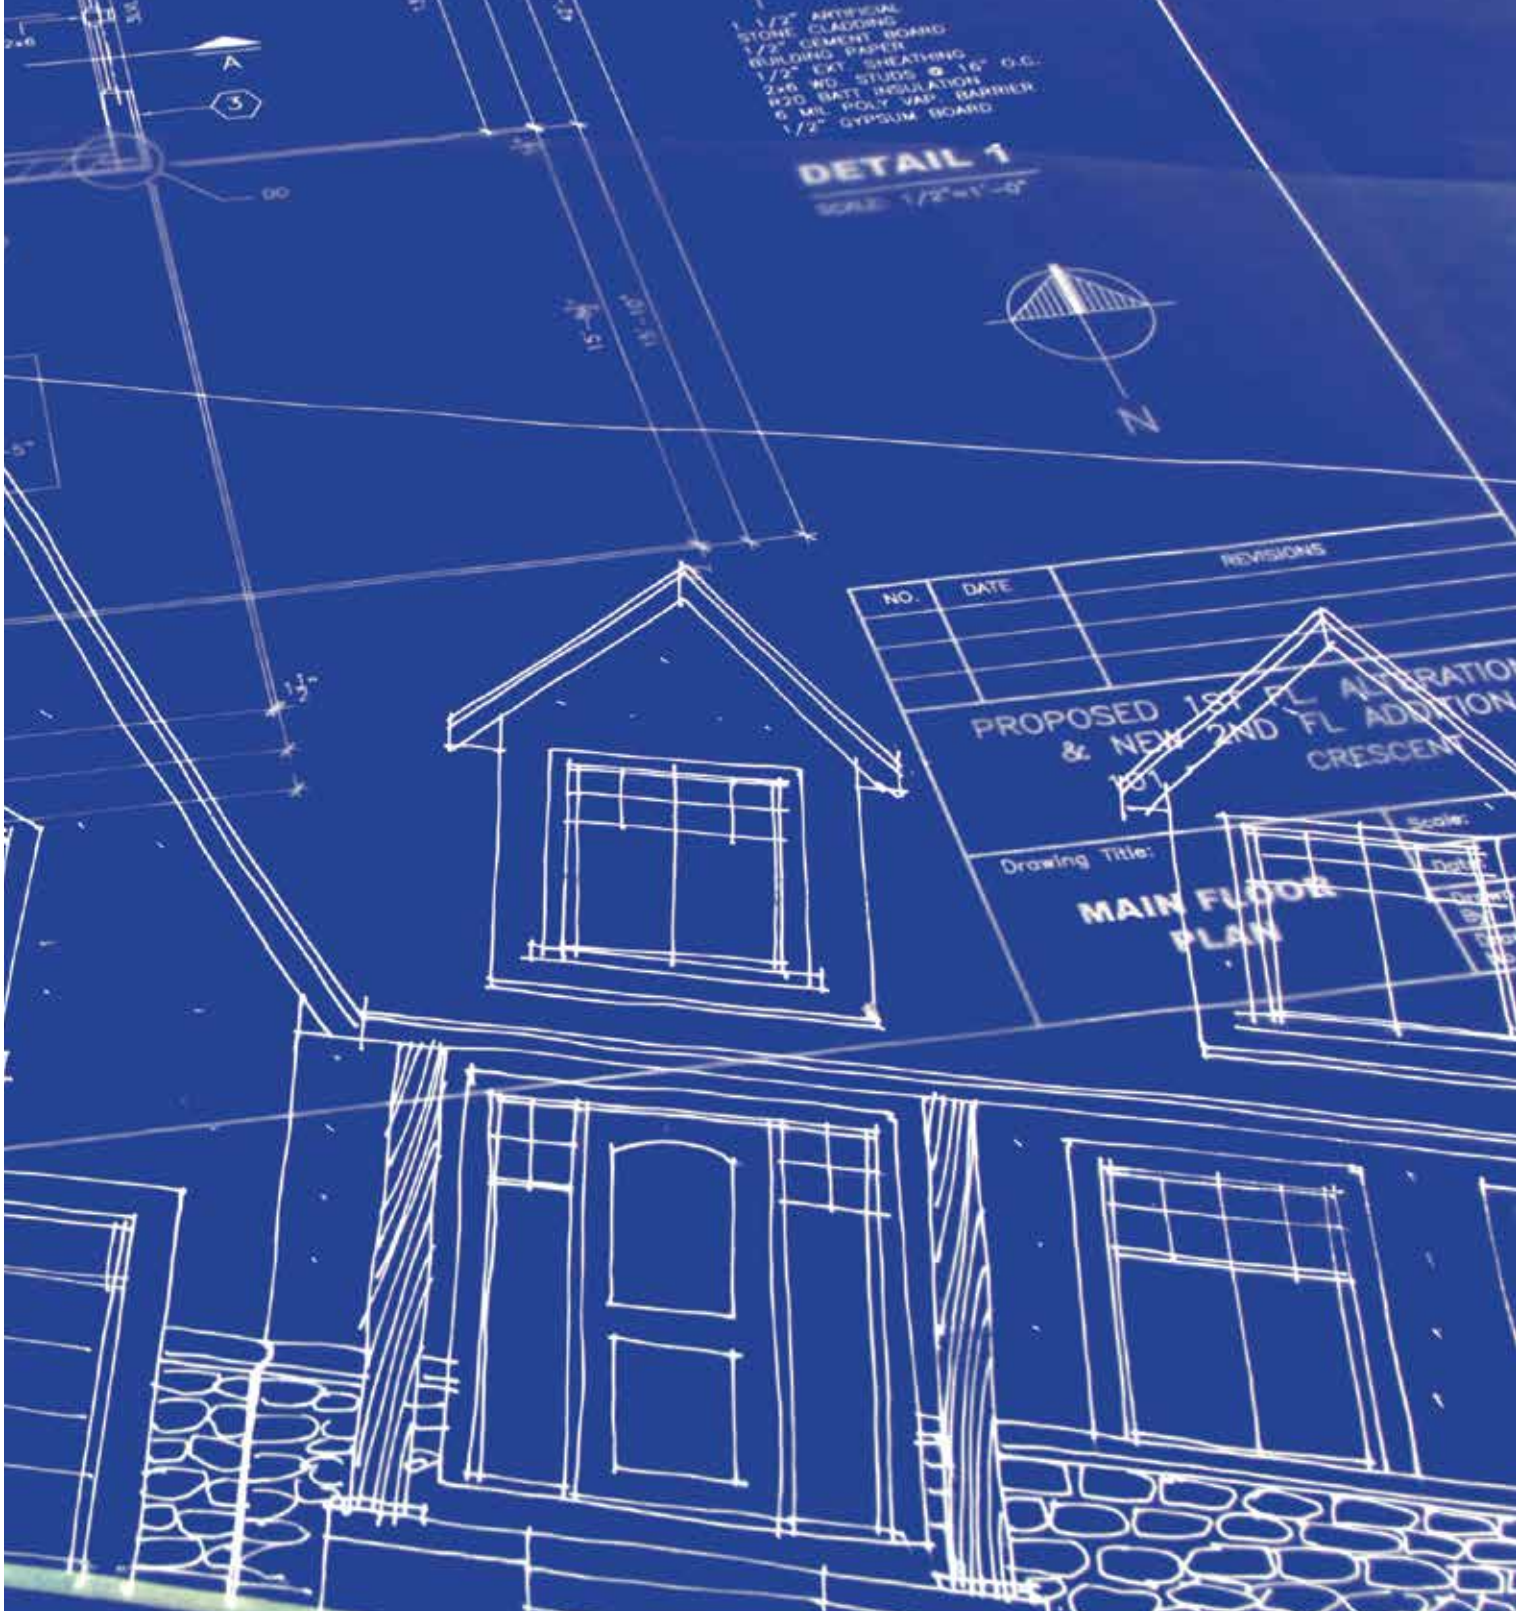

What to Know Before You Buy:

- Madero's Doorglass Inserts are designed to fit into any industry standard 23" x 37" half-lite cut out.
- Perfect for new construction or renovation projects.
- Most 6 panel door designs can be cut or modified to accept these 22" x 36" inserts.
- Installation instructions available at: www.madero.ca/exteriordoorglass

SPECIFICATIONS

STEEL DOORS

Practical, Customizable, Affordable.

Madero's collection of steel entry door systems provides you with the perfect choice to suit your needs, from general use to high-end quality and appearance. Our steel door systems feature paintable primed surfaces and the strength of internal wood blocking, while our Basic and Dakota systems feature high definition embossing.

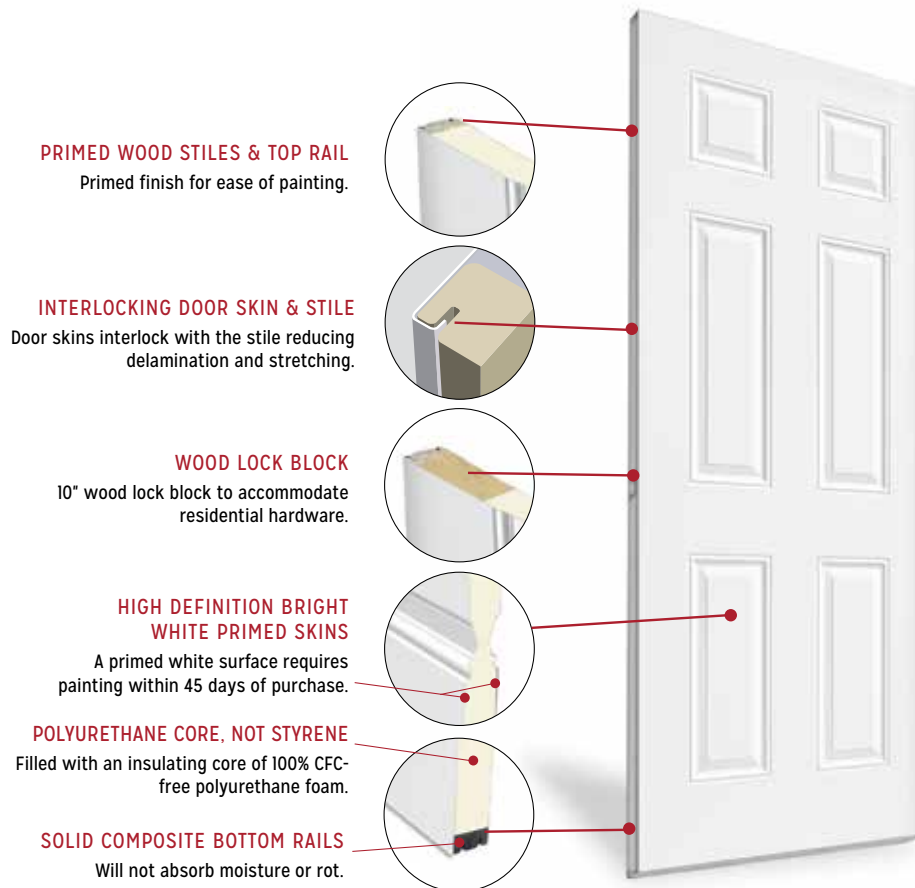

- The door skin is made with 24 gauge galvanized steel (26 gauge for Economy) with primed steel facings and primed wood edge construction.
- Designed with a 10" (or 6" for Economy) wood lock block to accommodate residential hardware.
- Available in either high definition or standard definition panel designs.
- Filled with an insulating core of 100% CFC-free polyurethane foam, providing an excellent R rating, while bonding the two door skins together.

Primed surfaces will accept an array of paint colours.

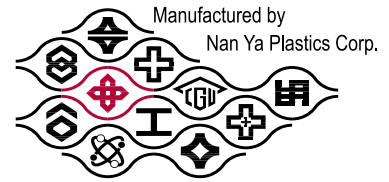

FINISHING: A primed white surface requires painting on all six sides within 45 days of date of purchase.

WARRANTY: 5 year limited warranty on door, if painted.

SPECIFICATIONS

FIBERGLASS DOORS

Strength, Security & Energy Efficiency

In 2005, Madero partnered with Nan Ya Plastics, a world leader in the manufacturing of fiberglass, working with the Canadian Research and Development Corporation to develop a maintenance-free door slab which meets the climate conditions found within the Canadian market.

- Smooth white pre-pigmented fiberglass does not require paint, will not discolour and withstands everyday wear and tear. Though paint is not required, these door slabs can be painted to match your home's unique design and style.
- All fiberglass door skins are made from impact-resistant fiberglass and are compression moulded to offer highly detailed panel definition.
- Door slabs are filled with an insulating core of 100% CFC-free polyurethane, providing a higher thermal efficiency than steel and offering a door slab that is temperate to the touch.
- Fiberglass doors will not dent, expand, contract, bow, warp or twist.

WATERPROOF: The stiles and rails are composed of water resistant polymer. With no exposed wood, water absorption is eliminated.

WARRANTY: 25 year limited warranty on door slab. No painting required.

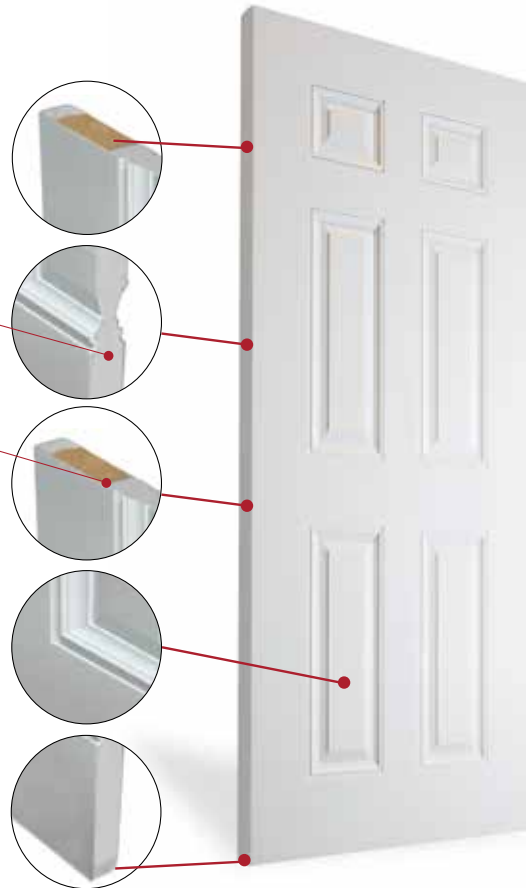

EXCEPTIONAL SECURITY
Our full length steel reinforced wood lock block offers exceptional security while allowing a range of hardware mounting options.

ENERGY EFFICIENCY
Filled with an insulating core of 100% CFC-free polyurethane foam, providing an excellent R rating, while bonding the two door skins together.

STRENGTH
A steel reinforced core creates a rigid internal structure that prevents bowing and warping in extreme temperatures.

BEAUTY
Deep embossed panels create beautiful crisp lines and deep shadows that are resistant to dents, dings, splintering, and corrosion.

COMPLETELY WATERPROOF
Our full length composite stiles and rails provide complete waterproofing for the door's insulation. These stiles will not splinter like wood or delaminate like steel.

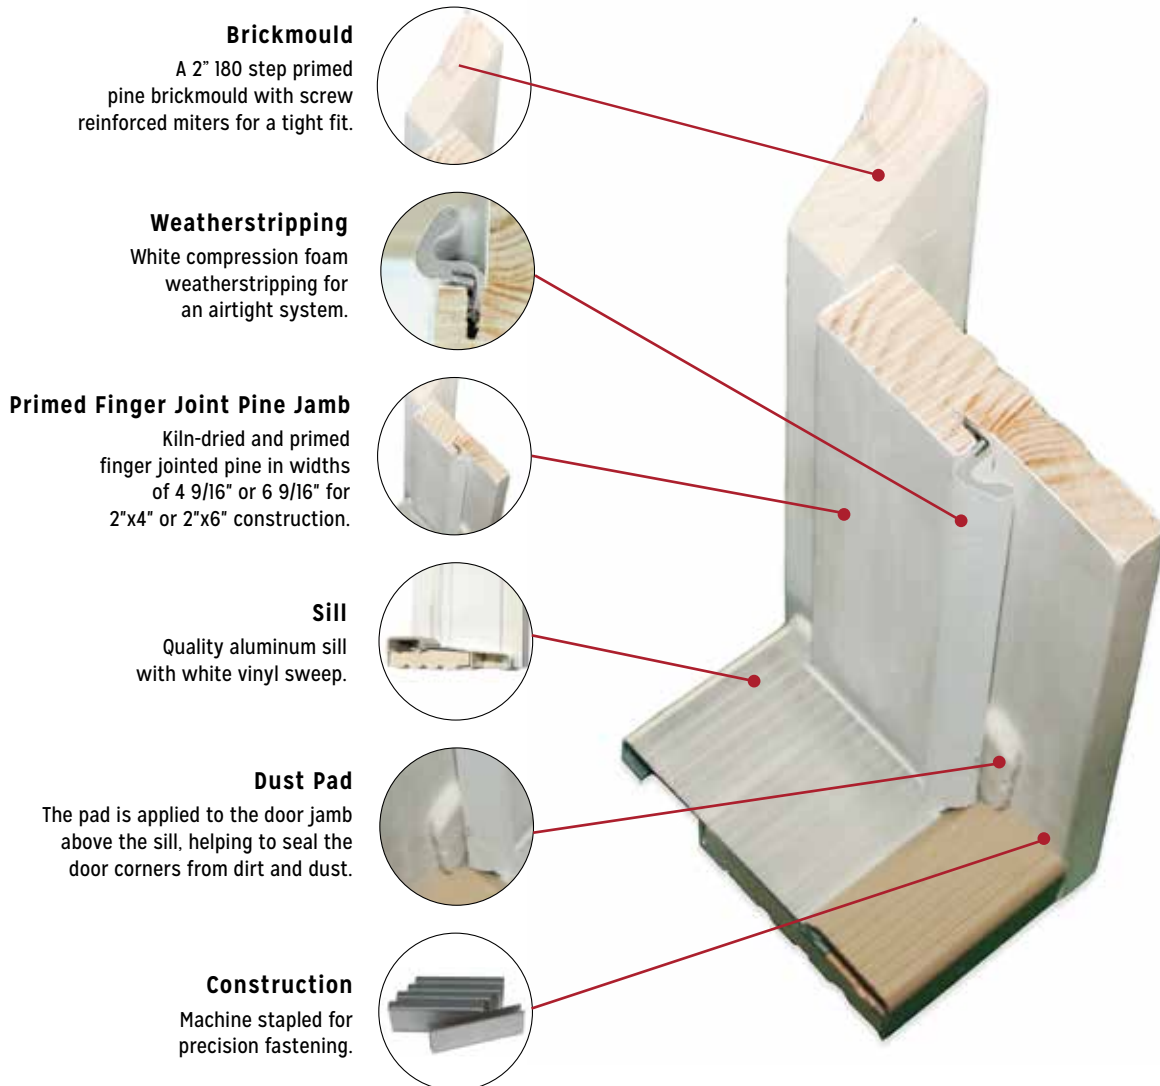

SPECIFICATIONS

BASIC WOOD FRAMES

Advanced design with the tried and true benefits of traditional wood construction.

- Kiln dried, primed finger-jointed pine
- Machine stapled for excellent holding power
- An economical and environmentally sustainable choice
- Complete with ball bearing hinges, a quality sill, a 2" brickmould and weatherstrip

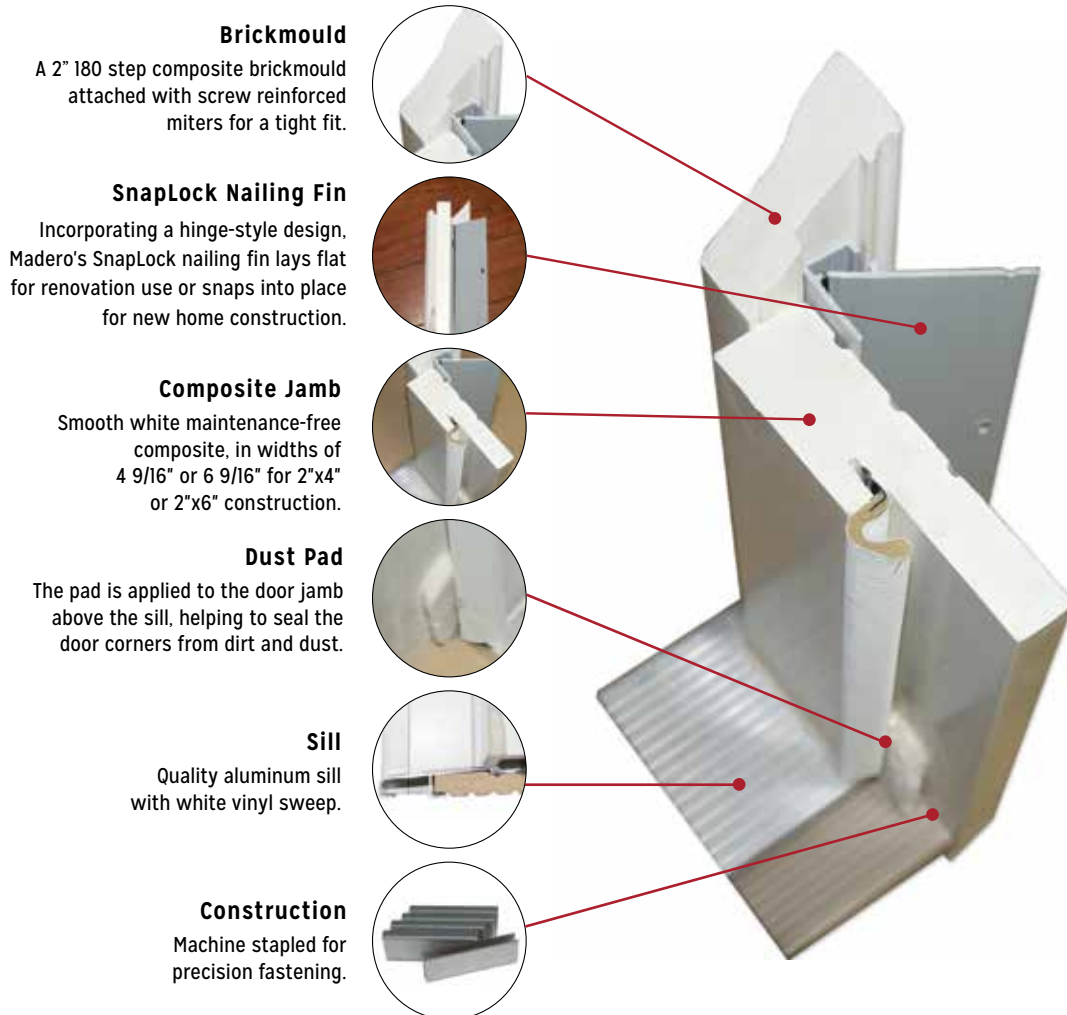

SPECIFICATIONS

BASIC COMPOSITE FRAMES

The flagship frame design for Madero's Entry Series Door Systems.

- Maintenance-free smooth white composite suited for the Canadian climate
- Pre-finished white design does not require paint
- Completely waterproof and will not discolour, absorb moisture, splinter, rust or rot
- Twice the holding power of wood
- High security, virtually indestructible and greatly reduces forced entry concerns
- Complete with ball bearing hinges, a quality sill, a 2" composite brickmould, weatherstripping and SnapLock nailing fin
