ASSA ABLOY

LEED SPECIFICATION

Valli & Valli USA Inc/Assa Abloy Italia S.p.A. products are manufactured with recycled steel, stainless steel, and brass. The percentage of post-consumer and post-industrial recycled content is broken down as follows:

- Steel and Stainless Steel post-consumer recycled content is approximately **5%**
- Steel post-industrial recycled content is approximately **35%**
Valli & Valli products average in the approximate **35%** range of scrap or recycled material melted in the furnace.
- Stainless Steel post-industrial recycled content is approximately **75%**
- Brass typically comprises **100%** recycled material, which consists of scrap brass and/or scrap copper, with secondary refined zinc and lead cast from scrap metal and reclaimed by products. The brass itself is **100%** recyclable.
- Packaging recycled content is approximately **30%**

These figures apply to all of our products, though they may vary slightly per shipment from Italy to the US depending on the mill source.
