COUNTER SALES DIVISION

Penner Doors & Hardware is a trusted vendor of the leading door & hardware brands, offering a high-level of knowledge and service.

Phone (1-888-871-3667) or visit one of our locations in Calgary, Edmonton, Red Deer, Saskatoon, or Winnipeg.

QUICK SHIP

A select listing of Commercial Hardware, Hollow Metal Doors and Frames are ready for pickup or delivery in a matter of hours.

QUALITY

We sell and distribute for the leading vendors in our industry. Penner Doors & Hardware take pride in staying on top of the newest products and training available.

CONTRACT DIVISION

ABOUT US

With 40 years of outstanding service, and locations in Calgary, Edmonton, Red Deer, Saskatoon and Winnipeg, Penner Doors & Hardware offers end to end solutions. We ensure the openings designed for your project are as per your requirements and best suited for the design and budget.

CONSULTING AND SPECIFICATION WRITING

At the beginning of your project, we write a specification of products for each opening, ensuring your opening designs meet all applicable building code requirements.

DOOR & HARDWARE SCHEDULE

Optimal door performance begins with an accurate and complete door hardware schedule. Following a standard format the schedule specifies the type of hardware required, while complying with the budget, owner standards, quality level, security level, as well as the fire and building codes within the region of construction.

PROJECT CO-ORDINATOR

We match our Co-ordinators with your project. Our team members are responsible for assisting with an on-time and on budget completion of your project.

SHOP DRAWINGS

We provide detailed shop drawings and materials for your project.

SERVICE & INSTALLATION

THE PENNER DIFFERENCE

Penner Doors & Hardware installs and services everything we sell. Our certified technicians provide professional installation services for multiple market segments to provide owners, end users and general contractors with the complete customer experience.

WE SERVICE THE FOLLOWING:

- Automatic / Manual / Revolving / Sliding Doors
- Access Control
- Operable Walls
- Partitions
- Rolling Steel / Fire doors
- Overhead Doors

INSTALLATION

Our co-ordinators will quote using our in-house crews or align with the leading installers in your area. Our on call personnel have one or more of the following certifications:

- AAADM Certification / DHI Member

NEW PRODUCT INSTALLATION

Let us do the work for you! Whether your project is a large multi-phase building like a university dorm, or a one-of-a-kind tenant improvement, we will install our products for you.

PLANNED MAINTENANCE

Avoid unpleasant surprises with planned maintenance. An annual check up into your facility can save you time, money and headaches.

RETROFITS & RENOVATIONS

Planning a renovation? Penner Doors & Hardware can design and install your commercial, industrial or multi-family needs.

VALUE ADDED SERVICES

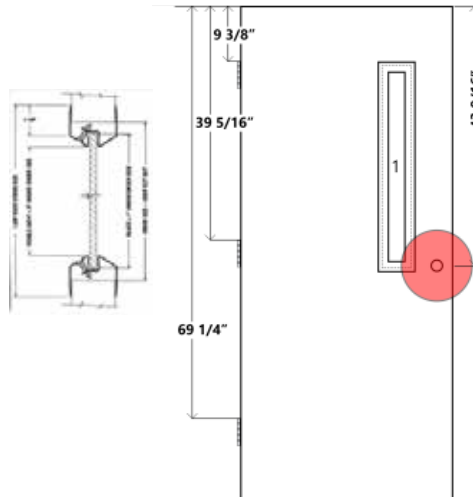

SPEC WRITING & ESTIMATING

We provide specification writing and estimating at any stage of the project, budget, tender or construction. We specialize in Division 8 and Division 10.

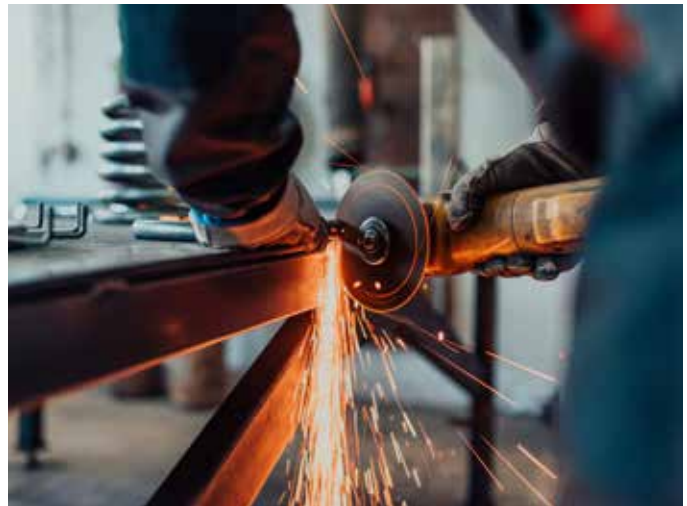

SHOP DRAWINGS

Available for projects of any size or complexity.

FABRICATION

Penner offers full service fabrication in four locations, Winnipeg, Calgary, Edmonton and Saskatoon. Our quality and service includes glass installation, hardware preparation, welded frames and borrowed lites.

PRE-FINISHING

The primary goal in construction is on time and on budget. In-house painting and hardware installation ensure you meet your targets.

HARDWARE INSTALLATION

By utilizing our experienced in-house hardware installers, all doors arrive pre-finished with hardware mounted. No more lost hardware parts or need for on site storage. Issues are resolved before they are delivered.

PACKAGING & CRATING

Product is labelled for easy identification on site.

WASHROOM ACCESSORIES

Architects and engineers turn to Bradley for the industry's most innovative products specified for commercial washrooms and industrial safety applications.

From hand dryers and hair dryers, to vacuums, purifying fans and lighting, Dyson technology is engineered with your employees and guests in mind.

Frost has earned a reputation for manufacturing quality washroom products that offer both durability and value.

Bobrick is recognized as an industry leader in well-designed, value-oriented washroom accessories.

ACCESS DOORS & HATCHES

Our roof hatch product offering includes a complete line of roof access and safety products.

GARBAGE AND LAUNDRY CHUTES

Fire-rated standard chute doors for garbage, linen or recycling systems.

TENANT STORAGE

Designed specifically for the condominium industry, storage lockers are available freestanding, floor to ceiling or hanging. Made of heavy duty welded wire mesh, the galvanized finish provides years of maintenance-free protection.

hadrian®

LOCKERS

Hadrian offers durability beyond the restroom with heavy-duty steel lockers, designed for effective storage that complements any space.

ERASABLE WHITE BOARDS

Our dry erase white boards are equipped with a magnetic surface. Standard and custom dimensions available.

CORK BOARDS & BILLBOARDS

Our cork boards are perfect for displaying documents with pushpins. They are easy to use, simple to upkeep and are available in natural cork or a variety of colour options. The "wall-to-wall" option is also offered to transform a wall into a giant billboard up to 8 feet high and the width of your choice.

Amstel Manufacturing has been a Canadian leader in the door industry since the late 1960's. Since its inception, Amstel has been considered one of the premier companies in custom building closure systems

CornellCookson is the leader in custom built Overhead Rolling doors. Whether your needs include Rolling Service Doors, Security Doors, Fire Doors, Insulated Garage Doors or Security Grilles, they have the right fit for you.

Pentagon has over 20 years of experience with security shutters and closure systems, as well as being a leading manufacturer of security shutters and retractable screens.

CrossingGard Grille® with ThreatProtect™ is made for schools, higher education institutions, healthcare facilities, and commercial/industrial applications that need a solution for safe egress and public access control.

FOOT GRILLES & FLOOR MATS

MAT SYSTEMS

Choose entrance mat systems that perform and provide lasting durability by helping to stop dirt and moisture from reaching your interior floors.

GRID SYSTEMS

Entrance grids are the ultimate dirt-trapping systems featuring superior fall-through to keep debris from being tracked into your building.

STAINLESS STEEL GRIDS

As pedestrians enter your building, stainless steel grids provide excellent scraping performance with high-tech yet durable aesthetic.

SPECIALTY FLOORING

The designer's choice for entrance flooring. It not only performs, it enhances your entrance and the critical first impression it makes.

PET WASH STATIONS

Pet wash stations are being added in many multi-family projects. There are several models and sizes to choose from. These are great selling incentives for every pet-friendly community, and reduce the overall plumbing maintenance on the building.

(Formerly Masonite Architectural)

ARCHITECTURAL WOOD DOORS

The Baillargeon brand has been specializing in the design, manufacture and marketing of architectural, institutional, fire and commercial wood doors and jambs in Canada since 1985.

When your ideas are packed with innovations, when your projects require custom solutions or when your creativity demands something much more than run-of-the-mill... anything is possible with Baillargeon! This custom approach opens up a world of potential. Have a complicated door design? We take pride in making the seemingly impossible — possible.

Baillargeon branded doors and frames can offer extraordinary detail to your project, are custom fit to your opening and backed by the Baillargeon compliance guaranty.

HIGH-QUALITY INTERIOR WOOD DOORS AND FRAMES

At LAMBTON DOORS, our mission is to develop and manufacture high-quality, value-added interior wood doors and frames for our North American commercial, architectural and institutional clients.

To meet our clients' needs and respond to new market opportunities, we focus on the quality of our human resources, use state-of-the-art technologies and offer harmoniously designed, environmentally-friendly products.

LAMBTON DOORS manufactures 5-ply wood doors and frames for several applications: fire-rated doors, acoustical doors, lead-lined doors, bullet-resistant doors, oversized doors and others.

20M MOULDED PANEL WOOD DOORS

The Interior program features a primed product ready for painting. Undersized to allow compatibility with Hollow Metal or Fire Rated Wood Jambs. 5 year limited warranty.

Shaker Doors | West End Collection | Core Moulded Panel

20M FIRE RATED FRAMES

Fire rated doors are often used for house and garage applications or as entrances to Multi-Family dwellings. All 20 Minute fire rated frames are available in 4-9/16", 6-3/4", 7-7/8" or 9". Custom upon request. Machined and labelled in factory - standard sizes will see the door slab 1/4" undersized in width, and 7/8" in height.

UP TO 180 MINUTE FIRE RATED FRAMES

EXPANDABLE EF FRAME SERIES

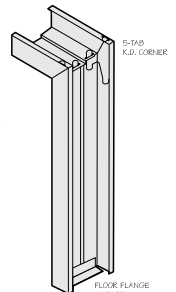

(Non-Reversible)

EF Series features a two-piece frame component, held together with a bracket system and spot welded to the frame material, allowing the jamb depth to be reduced or increased based on site conditions.

WELDED FRAMES

Welded frames are intended for installation during wall construction and are recommended for a wide variety of interior or exterior commercial, industrial, and residential applications. They are brake-formed for tight fitting mitres that are welded and ground to achieve a smooth appearance.
