

INSTALLATION DETAILS AND
STUD OPENING DIMENSIONS

INSTALLATION DETAILS

1 Install header.

2 Install hinge jamb. Ensure tabs on jamb are located through slots in header.

3 Install strike jamb in same manner as hinge jamb.

4 Pull down header and secure by bending over the jamb tabs.

5 Plumb hinge jamb, adjust tension anchor and secure strap and base anchors to studs.

6 Adjust strike jamb and head size. Square and adjust tension anchor. Secure strap and base anchors to studs.
